Douglas Heliston

Software Engineering Manager at CASSI · Brasília, Brazil

revhxl@gmail.com · linkedin.com/in/douglas-heliston-9a603349/

Remote, or on-site in Brasília (UTC−3) · Full-time employee (CLT), contractor (PJ) or contract · Portuguese (native) · English (basic)

SUMMARY

I've been a Software Engineering Manager at CASSI since 2022. I lead 44 professionals across UX, frontend, backend, data and production support and incident response, and I'm accountable for the company's two mobile apps, the CASSI app and CASSI Convênios.

I lead AI-enabled software development at CASSI: skills and scaffolds that build backends and web frontends to company standards, automated pull request review, and a Prometheus and Grafana monitoring standard, all validated by test harnesses.

I stay hands-on: backends serving 1.5M+ hits a day and 430M+ a year, Kafka and queue-based messaging, APIs and integrations, web, and React Native apps. I authored 1,700+ commits across 20+ repositories in 2025–2026.

I came to engineering through the business, auditing medical claims from 2011. That makes product partnership natural: I turn business goals into priorities, architecture and delivery.

HIGHLIGHTS

- **AI-enabled software development.** I lead the initiative and write part of it: MCP-based skills and agentic workflows, validated by test harnesses. In use: backend and web frontend scaffolds built to company standards, automated pull request review, and a Prometheus and Grafana monitoring standard.
- **Digital debt-negotiation platform.** I led the transformation of the system into a responsive digital platform, together with the business areas. BRL 74 million negotiated between December 2024 and March 2025, with an average completion time of three minutes.
- **CASSI mobile portfolio.** I'm accountable for strategy, architecture and delivery. I took Convênios from product vision to the app stores in React Native. The CASSI app has over 500K downloads on each store and a 4.8 rating, with 48K App Store ratings and 80K Google Play reviews.

EXPERIENCE

Aug 2022 – present	**Software Engineering Manager · CASSI** Managing 44 professionals across UX, frontend, backend, data and production support, plus both CASSI apps; the UX function started here.
May 2021 – Aug 2022	**Senior Software Developer · CASSI** Technical lead for the team while still writing code. .NET Core, Spring Boot, Apache Camel and Kafka.
Oct 2020 – May 2021	**Junior Software Developer · CASSI** Strategic projects, already leading the project and shaping solutions with other departments. ASP.NET MVC, Spring Boot, Apache Camel and Kafka.
Feb 2019 – Oct 2020	**Full-stack Developer · Stefanini Brasil** Through Stefanini, embedded in the CASSI team: ASP.NET MVC, Apache Camel, and SQL and API integrations.
Dec 2016 – Feb 2019	**Mid-level Data Analyst · CASSI** Dashboards and studies for decision-making and financial recovery in medical billing. I taught coordinators and analysts to query Oracle with SQL.

Jun 2015 – Dec 2016	**Junior Data Analyst · CASSI** Medical-claims studies to find operational gaps and anomalies, with SQL scripts run straight against the database.
Jul 2013 – May 2015	**Mid-level Medical Claims Analyst · CASSI** Auditing medical claims is how I learned how the healthcare business actually works.
Feb 2013 – Jul 2013	**Junior Medical Claims Analyst · CASSI** Medical claims analysis in billing.
Jul 2011 – Feb 2013	**Intern · CASSI** Where it started, in Brasília.

SKILLS

Leadership: Engineering management, Technical leadership, Product partnership, People development, Production support and incident management, Scrum and Kanban

Backend and integration: High-traffic backends, Kafka and queues, Observability (Prometheus, Grafana), APIs and integrations, Event-driven architecture, Microservices, OAuth 2.1 and OIDC

Web and mobile: React and Next.js, React Native, Design systems, Software architecture

Applied AI: AI-enabled software development, Backend and frontend scaffolds, Automated PR review, Agentic and MCP workflows, Test harnesses

Technologies: Java, Quarkus, Spring Boot, .NET Core, ASP.NET MVC, Apache Kafka, Apache Camel, React, Next.js, React Native, Red Hat OpenShift, 3scale, OAuth 2.1 / OIDC, Prometheus, Grafana, Oracle / SQL

EDUCATION

MBA in Project Management
UNOPAR · 2024 – 2025

Postgraduate Specialization in Mobile App Development
UNOPAR · 2024

Undergraduate degree (Tecnólogo) in Systems Analysis and Development
Universidade Paulista · 2017 – 2019

CERTIFICATIONS

Scrum Master Professional Certificate (SMPC) · CertiProf, 2020

Scrum Foundation Professional Certificate (SFPC) · CertiProf, 2020
